Note: Due to performance limitations, the Raspberry Pi 5 2GB and 4GB versions cannot run this model.

1. Model Scale

Model	Volume
llava:7b	4.7GB

2. Performance

3. Using Llava

3.1 Running Llava

Use the run command to start running the model. If the model has not been downloaded, it will automatically pull the model from the Ollama model library:

```
ollama run llava:7b
```

```
:~$ ollama run llava:7b
pulling manifest
pulling 170370233dd5: 100%                    4.1 GB
pulling 72d6f08a42f6: 100%                    624 MB
pulling 43070e2d4e53: 100%                     11 KB
pulling c43332387573: 100%                     67 B
pulling ed11eda7790d: 100%                     30 B
pulling 7c658f9561e5: 100%                     564 B

success
>>> Send a message (/? for help)
```

3.2 Starting a Conversation

```
How many minutes is half an hour?
```

Response time depends on your hardware configuration. Please be patient!

```
>>> How many minutes is half an hour?
 Half an hour is 30 minutes.

>>> Send a message (/? for help)
```

3.3 Visual Function

```
What do you see in this picture? :./test_pic.png
#Use ": + image path" in the conversation to enable the model to use its visual
function and interpret the information in the image.
```

```
:~$ ollama run llava:7b
>>> What do you see in this picture? :./test_pic.png
Added image './test_pic.png'
 In the image, there is a man sitting on what appears to be a rooftop
under a blue sky with some clouds. He has his head turned away from the
camera and seems to be looking at something or someone out of frame. The
man is wearing a tank top and shorts, and he is not wearing a shirt.
Behind him, there's another person standing up, also facing away from the
camera. Both individuals are on a rooftop with an open sky, suggesting a
warm, sunny day. There is no visible text or distinctive branding in this
image that I can discern.

>>> Send a message (/? for help)
```

3.4 Ending the Conversation

Use the `Ctrl+d` shortcut or `/bye` to end the conversation!

3.5 Chinese Conversation

If you don't have a Chinese input method, please refer to the Chinese input method switching tutorial.

Chinese Conversation:

```
>>> 一个小时是多少分钟？请用中文回答我
 一小时是60分钟。

>>> Send a message (/? for help)
```
